6. Do not operate any appliance with a damaged cord or plug. Return it to the store for change.

HOW TO USE BLENDER

This blender is perfectly suited for preparing dips, sauces, soups, mayonnaise and baby food as well as for mixing and milkshakes.

1. Put the blender mug on the body, making sure the gear under the mug fix rightly to the transmission gear on the body and put on the mug cover.
2. Make sure the switch is off and check if the voltage indicated on the appliance corresponds to the local mains voltage before you connect the appliance.
3. When blending, cut the materials into cube blocks of about 15 mm and put them into the mug, add proper amount of water and cover the mug. Note that the water amount should not exceed the maximum capacity of the mug. Press the pulse button several times for pre-blending and turn to other buttons according to respective needs.
4. Choose the right button according to the amount and nature of the materials being blended. Press the less powerful button for small amount and soft materials and more powerful button for large amount and hard materials.
5. If you want to see the blending effect or add fruits, vegetable or fruits, just open the transparent Inner cover.
6. When finish, switch off and pull out the power plug. Turn the blender mug clockwise for 30° to pull it out upwards and pour the juice into the container.
7. When using, do not pour water or other liquid onto this appliance. It is better to fill in materials of 1/3 -2/3 amount of the mug 's capacity.

CLEANING

1. Put into the blender mug proper amount of warm water and a little food detergent, cover the mug and press the pulse button for about 10 seconds; or soak the mug into the water to wash with a brush.
2. Wipe the main body with a piece of wet cloth. Do not wash it in water to prevent damage.
