SAFETY GUIDE

1. Please read this manual carefully before use it.
2. Check the voltage to ensure that it is in accordance with the rated voltage of this kettle. If the power cord is damaged, the same power cord is required to use and replaced by professional person. The power also need earth continuity protection.
3. The kettle must match with the base provided.
4. Not leave the power cord hang at the sides of the table or be exposed to high temperature objects.
5. Not fill the water beyond the maximum water level. The water will spill out if it is full.
6. Switch off automatically. Dry boil protection.
7. Not immerse the kettle into the water. Not penetrate the water into the electrical parts for fear that it might cause damage to its electric elements.
8. Must remove the kettle from the heating base when pouring, filling and cleaning.
9. Please shut off the power if not use the kettle for long time.

CONSTRUCTION

FEATURES

- Ceramic kettle
- Capacity: 1,6L
- Automatic switch off when water boils
- Boil-dry protection
- 360° turnable base
- Concealed stainless steel heating element
- Leak proof water gauge
- Voltage: AC220V~50Hz
- Power: 1500W
- Nominal current: 6,8A
- Body color: white
- Net/Gross weight: 1,64kg/1,98kg
- Box size: 245x245x230mm
